Privacy Policy

As you use our services, we want you to be clear how we’re using information and the ways in which you can protect your privacy. Our Privacy Policy explains:

- What information we collect and why we collect it.
- How we use that information.
- The choices we offer, including how to access and update information.

1. Information we collect

We collect information to provide better services to all of our users. We collect information in the following ways:

1.1 Information you give us
Our service can optionally require you to sign up for a Google Account. When you do, we’ll ask for personal information, like your name and email address to store with your account.

1.2 Information we get from your use of our services
We collect information about the services that you use and how you use them when the application crashes. This information includes device event information such as crashes, system activity, hardware settings and the date and time of your request.

2. How we use information we collect

We use the information we collect from our services to provide, maintain and improve them and to protect our users. We may use the name you provide for your profile in the application when the user signs up using either a Google account. If you have a Google Account, we may display your Profile name and Profile photo. When you contact us, we keep a record of your communication to help solve any issues you might be facing.

We will ask for your consent before using information for a purpose other than those that are set out in this Privacy Policy. We store your personal information (email address) on our server. We may store your personal information (email address) on a server located outside the country where you live.

3. Transparency and choice

People have different privacy concerns. Our goal is to be clear about what information we collect, so that you can make meaningful choices about how it is used.

4. Information you share

Our service does not share your information with others.

5. Accessing and updating your personal information

Whenever you use our services, we aim to provide you with access to your personal information. If that information is wrong, we strive to give you ways to update it quickly or to delete it – unless we have to keep that information for legitimate business or legal purposes. When updating your personal information, we may ask you to verify your identity before we can act on your request.

We may reject requests that are unreasonably repetitive, require disproportionate technical effort (for example, developing a new system or fundamentally changing an existing practice), risk the privacy of others, or would be extremely impractical.
Where we can provide information access and correction, we will do so for free, except where it would require a disproportionate effort. We aim to maintain our services in a manner that protects information from accidental or malicious destruction. Because of this, after you request us to delete information from our service, we may not immediately delete residual copies from our active servers and may not remove information from our backup systems.

6. Information we share

We do not share personal information with companies, organizations and individuals outside of Shreemeera Foundation unless one of the following circumstances applies:

6.1 For legal reasons

We will share personal information with companies, organizations or individuals outside of Shreemeera Foundation if we have a good-faith belief that access, use, preservation or disclosure of the information is reasonably necessary to:

1. meet any applicable law, regulation, legal process or enforceable governmental request.
2. enforce applicable Terms of Service, including investigation of potential violations.
3. protect against harm to the rights, property or safety of Shreemeera Foundation, our users or the public as required or permitted by law.

7. Information security

We work hard to protect our users from unauthorized access to or unauthorized alteration, disclosure or destruction of information we hold. In particular:

1. We encrypt many of our services using SSL.
2. We review our information collection, storage and processing practices, including physical security measures, to guard against unauthorized access to systems.
3. We restrict access to personal information to Shreemeera Foundation

8. When this Privacy Policy applies

Our Privacy Policy applies to all of the services offered by Shreemeera Foundation and its affiliates but excludes services that have separate privacy policies that do not incorporate this Privacy Policy.

Our Privacy Policy does not apply to services offered by other companies or individuals, including products or sites that may be displayed to you in search results, sites that may include services, or other sites linked from our services. Our Privacy Policy does not cover the information practices of other companies and organizations who advertise our services, and who may use cookies, pixel tags and other technologies to serve and offer relevant ads.

9. Changes

Our Privacy Policy may change from time to time. We will not reduce your rights under this Privacy Policy without your explicit consent. We will post any privacy policy changes on this page and, if the changes are significant, we will provide a more prominent notice (including, for certain services, email notification of privacy policy changes).
